PROFILE

I'm a full-stack developer with a foundation in design and a focus on building responsive, user-friendly interfaces. Fluent in English and Portuguese, and currently pursuing a Bachelor's in Computer Software Engineering to deepen my technical expertise.

Check the official website portfolio I developed and deployed at: https://rayancmorais.com.br

TECH STACK

- **Languages:** JavaScript, TypeScript
- **Frameworks & Libraries:** React, NumPy
- **Styling:** Styled Components, Tailwind CSS, CSS3, HTML5
- **User Experience:** UX/UI principles, user-centric design, responsive web design
- **Tools & Methodologies:** GitHub, VsCode, Figma (for both creating and deploying designs)

EXPERIENCE

Adept in modern front-end technologies, including React, TypeScript, Styled Components, and Tailwind. I am dedicated to creating functional and intuitive user-friendly applications by applying strong UX/UI principles. I'm finishing the back-end part of my full-stack on-site course.

SKILLS

- Proactivity.
- Responsibility
- Accountability
- Flexibility
- Adaptability
- Active Listening
- Time Management
- People Management
- Problem Solving Mindset
- Attentive to details

EDUCATION

Bachelor student in Computer Software Engineering
FullStack Web Developer
UX/UI Design

RESUMO PROFISSIONAL

My journey into the world of technology began with a curiosity about how things work. This curiosity led me to **UI/UX design,** where I explored my creativity with Figma. Soon, that passion evolved into a new one: web development. To dive deeper, I completed an intensive **Full Stack Web Development course**.

Today, I'm dedicated to **front-end development,** focused on transforming ideas into functional and visually appealing digital experiences. I create clean, responsive interfaces using **React, JavaScript, TypeScript, Tailwind, and Styled Components.**

I am a collaborative, self-taught professional passionate about solving complex problems. Fluent in both English and Portuguese, I am always ready to work in dynamic and multicultural teams. I am currently enhancing my knowledge by pursuing a degree in **Computer Software Engineering**.

In addition to my development work, I have experience in **IT support** at the Madre de Deus de Minas City Council, where I ensured network and system stability, and as a **Marketing Coordinator**, where I led the creation and execution of digital communication strategies.

CERTIFICATIONS

- Web & Mobile Design: I have certifications in UI/UX design, responsive web design, and a solid understanding of Figma for creating and prototyping designs.
- Front-End Development: I've completed comprehensive courses in React 18 and JavaScript, giving me the skills to build dynamic and interactive web applications.
- Logic & Programming: I have a foundational understanding of algorithms and programming logic, which helps me solve problems effectively.
